Part III DETAILED ACTION

1. This application has been examined. Claims 1-6 and 8-13 are pending in this application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-6 and 8-13 are rejected under 35 U.S.C. 102(e) as being anticipated by Barry et al. (6,606,165).

Art Unit: 2624

With regard to claim 1, Barry et al. teaches a method for selecting a printer for printing a print job (e.g. abstract), the method comprising: identifying one or more attributes of the print job (e.g. abstract, the attributes read on the parameters or characteristics); associating an attribute bit setting for each of one or more identified attributes (e.g. abstract and col. 31, lines 22-65); matching the one or more attribute bit settings of the print job with attributes listed in an attribute printer assignment table (e.g. abstract, col. 3, 16 and claim 1).; identifying the printer from the attribute printer assignment table designated to handle print jobs by having the matching one or more attribute bit setting (e.g. abstract and col. 31, lines 22-65).; and directing the print job to the identified printer (e.g. abstract, see figs. 1-6 and col. 31, lines 22-65).

With regard to claim 2, Barry et al. further teaches generating the plurality of print jobs using one or more application programs running in a computer that is in communication with one or more printers (e.g. col. 31, lines 25-52).

With regard to claim 3, Barry et al. further teaches the one or more attributes are selected from file type, application identify, color content, print resolution, page size and combinations therefore (e.g. col. 31, lines 22-65).

With regard to claim 4, Barry et al. teaches comprising entering the list of available printers and the attributes associated with each of the available printers through a graphical user interface (e.g. col. 21, lines 4-60 and col. 31, lines 22-65).

With regard to claim 5, Barry et al. further teaches identifying bit setting for each of the one or more identified attributes is set by an application program or a printer handler (e.g. col. 31, lines 22-65).

Art Unit: 2624

With regard to claim 6, Barry et al. further teaches storing the attribute printer assignment table in memory for access by the printer handler (e.g. abstract and col. 31, lines 10-65).

With regard to claims 8-13, the limitations of the computer program claims 8-13 are covered by the limitation of the steps covered by the method claims 1-6.

Conclusion

3. Applicant's arguments with respect to claims 1-6 and 8-13 have been considered but are moot in view of the new ground(s) of rejection.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
